ROYAL SOCIETY OF NEW SOUTH WALES

WARREN PRIZE NOMINATION FORM

The Warren Prize consists of a medal and lectureship in recognition of research by engineers and technologists in their early to mid-careers. Early-career researchers will have established a publication record in top-tier journals and wish to reach a broader audience. Mid-career researchers will have completed a larger body of work relevant to society.

The research must have originated or have been carried out principally in New South Wales. Entries may be submitted by researchers from any public or private organisation that encourages original research and development.

Nominations for the Warren Prize close on 30 September of each year in which nominations are sought. Entries are by submission of an original paper written to academic standards by the closing date to the Editor of the Journal and Proceedings of the Royal Society of New South Wales and by completion and return of the nomination form. Entrants are also referred to the "Information for Authors" available on the Society's website.

The submitted paper should review the applicant's research and identify its national or international significance. Preference will be given to entries that demonstrate relevance across the spectrum of knowledge -- science, art, literature, and philosophy -- that the Society promotes. An interview may be required. The paper may refer to previously published research but must not violate copyright of previous publications.

Each application must comply with the conditions of the award and consist of a completed nomination form together with the supporting documents as specified here and on the form. Completed nomination forms should be sent to the email address listed on the nomination form. The submitted paper should be sent to the Editor of the Journal and Proceedings of the Royal Society of New South Wales.

The Warren Prize has been established by the Royal Society of NSW to acknowledge Professor Warren's contribution both to the Society and to the technological disciplines in Australia and internationally. William Henry Warren established the first faculty of engineering in New South Wales and was appointed as its Professor at the University of Sydney in 1884. Professor Warren was President of the Royal Society of New South Wales on two occasions. He had a long career of more than 40 years and during this time was considered to be the most eminent engineer in Australia. When the Institution of Engineers, Australia was established in 1919, Professor Warren was elected as its first President. He established an internationally respected reputation for the Faculty of Engineering at the University of Sydney and published extensively, with many of his papers being published in the Journal and Proceedings of the Royal Society of New South Wales.

NOMINEE

Family Name: _____ Given Names: _____

Preferred Name (if applicable): _____ Preferred pro-nouns: _____

Date of Birth: _____ Postnominals: _____

Title: _____

Residential Address: _____

Suburb: _____ Postcode: _____

Mobile Number: _____ Business Number: _____

Email Address: _____

Are you of Aboriginal or Torres Strait Islander origin?

Current Affiliation: _____

Current Position: _____

Paper you wish to have considered for this award:

Academic Qualifications:

Professional Qualifications:

Career interruptions, including those due to unemployment, part-time employment, childbirth, parental leave, carer's responsibilities, misadventure, or illness:

Any other aspects of career or opportunities to demonstrate excellence in the field of this award that are relevant to the assessment:

Please attach the CV of the nominee

I have attached the relevant documents

NOMINATOR

Title: _____

Family Name: _____

Given Names: _____

Mobile Number: _____

Business Number: _____

Email Address: _____

Current Position: _____

Current Affiliation: _____

Relationship to nominee: _____

Academic Qualifications:

Professional Qualifications:

I have attached a Letter of Support including a summary of Nominee's achievements and research (maximum 2 pages) and a short-form citation (max 400 words).

Signature of nominator:

SUPPORTING REFEREE 1

Title: _____

Family Name: _____
