ROYAL SOCIETY OF NEW SOUTH WALES

WARREN PRIZE NOMINATION FORM

The Warren Prize

The Warren Prize consists of a medal in recognition of research by engineers and technologists in their early to mid-careers. Early-career researchers will have established a publication record in top-tier journals and wish to reach a broader audience. Mid-career researchers will have completed a larger body of work relevant to society.

In both cases, the research must have originated or have been carried out principally in New South Wales. Entries may be submitted by researchers from any public or private organisation that encourages original research and development.

Nominations for the Warren Prize close on 30 September in each year in which nominations are sought. The application procedure is described on the nomination form. Each application must comply with the conditions of the award and consist of a completed nomination form together with supporting documentation as specified on the form. Completed nominations should be sent to the email address listed on the *nomination form*. The successful candidate will contribute an original paper to the Journal and Proceedings of the Royal Society of New South Wales, written to the Journal's requirements by a date agreed with the *Journal's Editor*.
