ACKNOWLEDGEMENTS (2021)

This alphabetical bibliography was assembled by an RSNSW Councillor, Dr Davina Jackson, using a **chronological listing** compiled by the Editor of the *RSNSW Journal and Proceedings*, Emeritus Professor Robert Marks. Many entries are linked to copies in the Biodiversity Heritage Library, an online repository of historical environmental science papers managed by the Smithsonian Libraries and Archives. Other sources were the National Library of Australia's Trove portal of scans of Australian historical newspapers and magazines, and a Google facsimile of the 1858 *Sydney Magazine of Science and Art*.
